## Being a Part of Hacettepe

Hacettepe, an **international** and a **leading** university

The image shows the interior of an anechoic chamber. The walls, floor, and ceiling are covered with numerous wooden pyramidal-shaped electromagnetic absorbers designed to eliminate reflections. In the center, there is a scientific setup consisting of a horizontal metal rod supported by a wooden stand on the left and a vertical stand on the right. A yellow flag is attached to the rod. The floor is marked with yellow and black safety lines.

## Besides Theory...

### Hacettepe Technopolis

Our technology development center, Technopolis, which aims to produce revolutionary technological information, commercializes technological information by providing innovation for products and production methods, raising the quality and the standard of the products, enhancing productivity and decreasing expenses; and it also encourages technology-based production, promotion and entrepreneurship in Turkey, Balkans, Caucasians and Middle East.

In order to reach this goal, Hacettepe Technopolis cooperates with national and international institutions such as Europe Investment Bank, Pfizer, Glaxo Smith Kline, Oracle and Economic Development Foundation. More than 600 professionals including computer engineers, electrical engineers, biologists, chemists, and statisticians from both public and private sector collaborate in order to both develop their own products and services and to reach the latest innovations in the field of technology.

Technopolis, which creates an atmosphere that serves everybody's interest, sets a good example for revolutionary spirit of Hacettepe University.

**Hacettepe University, School of Foreign Languages facilitates foreign language education open to the whole university.**

Hacettepe University provides free language education for totally 40,000 members.

Foreign language education project that intends to reach approximately 40,000 people (our students, academic and administrative staff) and to improve their foreign language knowledge and skills was launched in 2012.

Although the university's medium of instruction is Turkish, besides foreign language departments, there are other departments where the instruction is provided totally in a foreign language (English, French, and German) and the departments where the medium of instruction is 30% English at minimum. Foreign language preparatory program is provided for the students of these departments.

## International Academic Staff

**Kim Yong Moon, professor at Hacettepe University, Department of Ceramics and Glass Design**

Our university exchanges academic and administrative staff via Erasmus Staff Mobility and other bilateral agreements. Academic staff coming from all around the world to Hacettepe University gives lectures and seminars and hold workshops.

With the same opportunities, Hacettepe University supports and encourages its academic and administrative staff to build up their international experience.

By means of the support we give to our academic staff for exchange programs, we aim to enable our students to receive an education having the quality on an international level.

As a part of international education and cooperation, Interactive Distance Education Programs in the field of Medicine was launched in 2013 within the framework of a bilateral agreement on Academic Cooperation between Cornell University and Hacettepe University.
